|---|--|-------------|
|  | OTalk @OTalk_ | 13 days ago |
| | Welcome to November's #OTalk Research. Tonight we are joined by @lezeki to discuss apps and smart technology in research. @NikkiDanielsOT on the @OTalk_ account | |
|  | leisle Ezekiel @lezeki | 13 days ago |
| | Looking forward to hearing about peoples experiences and thoughts on apps in research at #OTalk | |
|  | Bill Wong, OTD, OTR/L @BillWongOT | 13 days ago |
| | Happy #otweek2018 everyone! 🍻🌟👏👏 #OTalk | |
|  | leisle Ezekiel @lezeki | 13 days ago |
| | Looking forward to hearing about peoples thoughts and experiences re apps in OT research at #OTalk | |
|  | Kerri Schubert @kerri_schOT | 13 days ago |
| | Happy Tuesday & Happy 2nd day of #OTWeeek2018 .. here for #otalk ❤️ https://t.co/HJ1WEZJMGt | |
|  | Kerri Schubert @kerri_schOT | 13 days ago |
| | RT @BillWongOT: Happy #otweek2018 everyone! 🍻🌟👏👏 #OTalk | |
|  | Mark @markstudentOT | 13 days ago |
| | @lezeki what luck! It's #otweek2018 and you're on #OTalk! | |
|  | OTalk @OTalk_ | 13 days ago |
| | So who is joining us this evening? Let's start off with some hellos before we kick off with question 1 #Otalk | |
|  | Bill Wong, OTD, OTR/L @BillWongOT | 13 days ago |
| | RT @kerri_schOT: Happy Tuesday & Happy 2nd day of #OTWeeek2018 .. here for #otalk ❤️ https://t.co/HJ1WEZJMGt | |
|  | Mark @markstudentOT | 13 days ago |
| | #OTalk https://t.co/zyTdO6IEjr | |
|  | Amy Stringer @AmyStringerOT | 13 days ago |
| | @OTalk_ I haven't done an #OTalk in over a year now, just logged on randomly not realising it was Tuesday 8pm--perfect timing!! | |
|  | Dr Lynne Goodacre @LynneGoodacre | 13 days ago |
| | Hi everyone great that #Otalk research fall in #OTWeek2018 | |
|  | OT Child (Kat Carruthers) @OT_Child | 13 days ago |
| | Hello everyone #OTalk | |
|  | OTalk @OTalk_ | 13 days ago |
| | Ok time to kick off. Over to @lezeki for question 1. Don't forget the hashtag folks #Otalk | |

Ellen 🇬🇧 @OTellenUK
@OTalk_ Hello 🙋 #OTalk

13 days ago

leisle Ezekiel @lezeki

13 days ago

First question for #OTalk . What roles do you think apps and smart technology can play in occupational therapy research?

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

I'm here! Rotational Band 5 #OT, currently with elders and moving to acute mental health next week. I wrote my masters dissertation on app use, so really excited to participate in tonight's talk. #OTalk

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

@kerri_schOT I am actually doing some number crunching about how I will make #rcot2019 next year. Can't believe it is 7 months away. #otalk

leisle Ezekiel @lezeki

13 days ago

great to hear about your research so far on #otalk

OTalk @OTalk_

13 days ago

So, question 1. What are your thoughts? #OTalk

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

@lezeki They definitely have abilities to track data. Such abilities can not only show the progress patients are making... but also overall effectiveness of interventions. #otalk

OTalk @OTalk_

13 days ago

@RebeccaCrouch Great news, looking forward to hearing about your experiences #OTalk

Dr Jenny Preston MBE @preston_jenny

13 days ago

Hi everyone, I'm here too looking forward to the discussion #OTalk @NikkiDanielsOT

Catriona Connell @POPPED_Project

13 days ago

@OTalk_ Q1 #otalk Experience Sampling Methods... ?

حورية السلطان @Hurya_Ahmad

13 days ago

RT @OTalk_: So, question 1. What are your thoughts? #OTalk <https://t.co/JN8b5ydiRa>

OT Child (Kat Carruthers) @OT_Child

13 days ago

@lezeki So much- A way to disseminate research for public consumption, seeking public involvement in research design, research participation and facilitated discussion to use as a support to traditional face to face intervention such as use of video conferencing tech in practice #OTalk

Amy Stringer @AmyStringerOT

13 days ago

@lezeki #OTalk perhaps the use of assistive apps like PECS to help children communicate in qualitative research studies

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

Loads! Recording data, including: - audio (recorded interviews and memos) - text (thoughts and reflections) - visual (photos). #OTalk

Dr Lynne Goodacre @LynneGoodacre

13 days ago

It such a broad church depending on the app/technology but has the potential to collect real time data as things happen rather than relying on recall or simulation #OTalk

OTalk @OTalk_

13 days ago

RT @LynneGoodacre: It such a broad church depending on the app/technology but has the potential to collect real time

data as things happen...

OTalk @OTalk_

13 days ago

**Mark** @markstudentOT

13 days ago

#OTalk I use an Amazon Alexa Show with an older family member.... it enables her to see what is not easily explained verbally. Inclusivity.

**Amy Stringer** @AmyStringerOT

13 days ago

@LynneGoodacre Ohh sorry! Picture exchange communication! They allow non verbal children to select pictures to communicate rather than words 👍 #OTalk

**OT Child (Kat Carruthers)** @OT_Child

13 days ago

@lezeki Definitely - well if we go down the route of engagement with technology and apps as often being a meaningful occupation to many in itself we go full circle and definitely the remit of OT #OTalk

**leisle Ezekiel** @lezeki

13 days ago

So starting to think about research the benefits of apps as interventions? #otalk

**Bill Wong, OTD, OTR/L** @BillWongOT

13 days ago

RT @AmyStringerOT: @LynneGoodacre Ohh sorry! Picture exchange communication! They allow non verbal children to select pictures to communica...

**Katie Crowfoot** @katie_crowfoot

13 days ago

#otalk the app could be linked with a patients individual timetable where patients could record whether they attended to the routine with before and after mood rating scales. Data could then be populated to ascertain benefits

**Kerri Schubert** @kerri_schOT

13 days ago

RT @OTalk_: @LynneGoodacre @AmyStringerOT Would like to hear more about this! Sounds interesting #otalk

**Bill Wong, OTD, OTR/L** @BillWongOT

13 days ago

@lezeki Or- can Goniometer apps replace the such things altogether. #otalk

**leisle Ezekiel** @lezeki

13 days ago

I would love to replace goniometers! #OTalk

**OTalk** @OTalk_

13 days ago

RT @lezeki: So starting to think about research the benefits of apps as interventions? #otalk <https://t.co/edg4NKD21R>**OTalk** @OTalk_

**leisle Ezekiel** @lezeki

13 days ago

lovely research at @MORes_OBU collating experiences of rehab after TBI with a purpose built app.#OTalk

**Dr Lynne Goodacre** @LynneGoodacre

13 days ago

I've never done this but I'm thinking if the intervention is being delivered by different people in different places it removes error as everything is pretty standardised? #OTalk

Samantha Pywell @smileyfacehalo

13 days ago

#UCLanOT @UCLanOT it's time to #OTalk !!

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

RT @lezeki: lovely research at @MORES_OBU collating experiences of rehab after TBI with a purpose built app.#OTalk
https://t.co/UlLdySIhke

OT Child (Kat Carruthers) @OT_Child

13 days ago

@lezeki There are apps being developed as part of research projects and interventions in the NICU. From a brief lit review, there are also a number of apps being created to allow access to info that the general public has - in one case child development but for preterm infants #OTalk

leisle Ezekiel @lezeki

13 days ago

So many great ideas here at #otalk.

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

RT @OT_Child: @lezeki There are apps being developed as part of research projects and interventions in the NICU. From a brief lit review, t...

OTalk @OTalk_

13 days ago

#otalk We've definitely uncovered lots of uses for smart technology in research. Learning lots tonight!

Dr Lynne Goodacre @LynneGoodacre

13 days ago

Sorry but again we not all be sure what TBI is #OTalk

Catriona Connell @POPPED_Project

13 days ago

if geographical location matters, link to the gps function #otalk

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

Loads. I interviewed 7 OTs for my research across Community & Inpatient Neurological, Vocational, Paediatric & Adult Social Care settings. They used a variety of apps, including in-built apps & paid-for apps. The apps were valuable tools to support practice & intervention #OTalk

leisle Ezekiel @lezeki

13 days ago

sorry traumatic brain injury . #OTalk

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

@LynneGoodacre In the US- we call it traumatic brain injury. #otalk

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

RT @RebeccaCrouch: Loads. I interviewed 7 OTs for my research across Community & Inpatient Neurological, Vocational, Paediatric & Adult Soc...

leisle Ezekiel @lezeki

13 days ago

Might be some overlap but here is Qu 2 #OTalk. What do you think the benefits are of using apps and smart tech in occupational therapy research?

OTalk @OTalk_

13 days ago

So, we covered lots in question 1; Here's question 2 #OTalk

Dr Lynne Goodacre @LynneGoodacre

13 days ago

There was a great project in rheumatology using an app to get people to collecting data on the relationship between pain & the weather each day #OTalk

Amy Stringer @AmyStringerOT

13 days ago

@RebeccaCrouch Would love to hear more about what kinds of apps OTs were using across those settings! :) great work #OTalk

Kerri Schubert @kerri_schOT

13 days ago

@katie_crowfoot this is such a good idea! i work on a neuro rehab unit and each patient has a timetable & we often rate their mood/relaxation before & after sessions .. but it's all paper based at the moment #otalk

Karen Scorer @KarenScorerOT

13 days ago

RT @OTalk_: #otalk We've definitely uncovered lots of uses for smart technology in research. Learning lots tonight!

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

@lezeki If it is stored in the app, then it will be less likely to have recording error. #otalk

Kerri Schubert @kerri_schOT

13 days ago

RT @katie_crowfoot: #otalk the app could be linked with a patients individual timetable where patients could record whether they attended t...

OTalk @OTalk_

13 days ago

Why should we use apps in research? What are the benefits? Asks @lezeki #Otalk

leisle Ezekiel @lezeki

13 days ago

Yes its those daily situational factors that apps have potential to capture #OTalk

Jacki Liddle @jacki_liddle

13 days ago

@lezeki We have done research using apps for passively monitoring geolocation to measure lifespace (geographic space in which we live and conduct activities) #otalk

OTalk @OTalk_

13 days ago

Great way to collect data! #Otalk

Amy Stringer @AmyStringerOT

13 days ago

#OTalk apps and technology can make processes much more efficient-saves time and money!

Cara Lawrence @caralawrence

13 days ago

@lezeki All for it if it helps service users or staff! However tech is not for everyone #otalk

OTalk @OTalk_

13 days ago

Will be great to hear about what is being used #Otalk

Kerri Schubert @kerri_schOT

13 days ago

RT @AmyStringerOT: @RebeccaCrouch Would love to hear more about what kinds of apps OTs were using across those settings! :) great work #OTa...

Katie Crowfoot @katie_crowfoot

13 days ago

#otalk absolutely @kerri_schOT we do to @LPTnhs ... wouldn't it be wonderful to have something that would really support our patients but equally give us some quality data to work with to justify the work we do on a daily basis.

Jacki Liddle @jacki_liddle

13 days ago

@lezeki Also actively entering participation through time use diaries and experience sampling surveys #otalk

Dr Lynne Goodacre @LynneGoodacre

13 days ago

A lot of people are now v familiar with using apps/ smart technologies so easy for people to use #Otalk and not necessarily requiring a lot of new costly equipment

**leisle Ezekiel** @lezeki

13 days ago

sounds really interesting. I want to jump to ethics but will get to that in a later question! #OTalk

**Catriona Connell** @POPPED_Project

13 days ago

RT @jacki_liddle: @lezeki We have done research using apps for passively monitoring geolocation to measure lifespan (geographic space in w...

**Dr Jenny Preston MBE** @preston_jenny

13 days ago

Might it be about accessibility, standardisation of data collection and research processes, and real time data collection? Probably also something about the facility for inbuilt prompts, recognising how difficult it can be sometimes with research tools such as diaries #OTalk

**OTalk** @OTalk_

13 days ago

Definitely a benefit #OTalk

**Amy Stringer** @AmyStringerOT

13 days ago

#OTalk If the apps are user friendly and accommodative for people of all ages, stages and abilities, it makes for more inclusive research, which is the aim of the game!

**Jacki Liddle** @jacki_liddle

13 days ago

@lezeki Need to consider privacy/data security/ easy ways to opt out/ accessibility and making sure people can access their own data #OTalk

**Kerri Schubert** @kerri_schOT

13 days ago

RT @LynneGoodacre: A lot of people are now v familiar with using apps/ smart technologies so easy for people to use #OTalk and not necessar...

**OT Child (Kat Carruthers)** @OT_Child

13 days ago

@caralawrence @lezeki This is my concern. I'm very pro-tech and want to use it in my own research but also concerned about people who may not have access to devices or may choose not to or it isn't meaningful to them. Is it a certain demographic we would be capturing for participation #OTalk

**Cara Lawrence** @caralawrence

13 days ago

@LynneGoodacre Also lots of people are never without there phone which helps if it's being used as memory aid #otalk

**leisle Ezekiel** @lezeki

13 days ago

really important point to remember inclusivity of resesarch methods #OTalk

**OTalk** @OTalk_

13 days ago

Lots of potential benefits here!#OTalk

**Bill Wong, OTD, OTR/L** @BillWongOT

13 days ago

**Bill Wong, OTD, OTR/L** @BillWongOT

13 days ago

RT @caralawrence: @AmyStringerOT Apps often have a free trial or are free which helps people know if it is useful! #otalk

**leisle Ezekiel** @lezeki

13 days ago

I agree, although the demographic is changing #OTalk

**Amy Stringer** @AmyStringerOT

13 days ago

@katie_crowfoot @kerri_schOT @LPTnhs I really like this! Through incorporating the use of apps into what we already do in clinical practice, it can help facilitate the link from practice to research more efficiently #OTalk

**Rebecca Crouch, Occupational Therapist** @RebeccaCrouch

13 days ago

If you are using one specific device (e.g a phone or tablet), your research/data could all be in one place, whether its recording data, disseminating information or tracking data. The danger is separating yourself from your work/maintaining #occupationalbalance #OTalk

**OTalk** @OTalk_

13 days ago

Good point. Potentially some limitations to overcome too? Think we might be exploring these further in our next question! #OTalk

**Kerri Schubert** @kerri_schOT

13 days ago

@katie_crowfoot @LPTnhs I think for where I work as well, pt's are familiar with ipads etc as they are often used as part of therapy so it would link in nicely #otalk

**Bill Wong, OTD, OTR/L** @BillWongOT

13 days ago

RT @AmyStringerOT: @katie_crowfoot @kerri_schOT @LPTnhs I really like this! Through incorporating the use of apps into what we already do i...

13 days ago

RT @RebeccaCrouch: If you are using one specific device (e.g a phone or tablet), your research/data could all be in one place, whether its...

Chloe Hague 🌻 @ChloeHagueOT

13 days ago

@lezeki Environmentally friendly as less paperwork and easier to collect real time data #OTalk

Jacki Liddle @jacki_liddle

13 days ago

@LynneGoodacre Can be less stigmatised that using "medical" equipment especially during community lives #OTalk

Amy Stringer @AmyStringerOT

13 days ago

@jacki_liddle @lezeki Another key aspect is considering how we can encourage routine use of these apps as tools, having them is one thing, but using them daily is another ballgame! Great potential though, love it :) #OTalk

OTalk @OTalk_

13 days ago

Working smarter! #OTalk

Cara Lawrence @caralawrence

13 days ago

@OT_Child @lezeki In a trial I helped recruit for they could provide a computer for the trial for computer memory training! But this then might mean they need training how to use it first #otalk

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

@RebeccaCrouch And another danger is that if you misplace it in a public place, you never know about where the data will end up. Heard about such instances when researchers left USB drives in public places. #otalk

leisle Ezekiel @lezeki

13 days ago

Its great to see so many different perspectives on apps here at #Otalk . Definitely making me think!

Dr Lynne Goodacre @LynneGoodacre

13 days ago

Does it make analysis easier, ie less inputting of data into analysis software, I'm not sure? #Otalk

Cara Lawrence @caralawrence

13 days ago

@RebeccaCrouch I have recently got mind view software which I feel would be helpful for recording thoughts #otalk

OT Child (Kat Carruthers) @OT_Child

13 days ago

@LynneGoodacre I agree and the benefits outweigh the negatives. It may be the case that ideally a research team has central devices that would allow pp to engage if they were unable to gain access to tech for whatever reason (thinking of some vulnerable groups) to reduce the issue #OTalk

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

@caralawrence Sounds great. Is that on your phone? #OTalk

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

RT @OT_Child: @LynneGoodacre I agree and the benefits outweigh the negatives. It may be the case that ideally a research team has central d...

Jacki Liddle @jacki_liddle

13 days ago

@OT_Child @caralawrence @lezeki In our research we ended up providing devices to enable access for all willing (also support for use and designed with input from end users). Also meant we could provide data and not use up battery life or cause costs for participants #OTalk

Kerri Schubert @kerri_schOT

13 days ago

@RebeccaCrouch @BillWongOT such a good point.. could be hard to keep work at work if it's in your pocket! #otalk

Cara Lawrence @caralawrence

13 days ago

@RebeccaCrouch I think you can get it on phone but I have it on my laptop! It's a mind map but then can turn into a word document! #otalk

Lanelle Jansen van Vuuren @Lanellejv

13 days ago

Joining my first #OTalk slightly late but excited to find out more about apps in research! I've done some research in the past into apps in cognitive intervention and treatment but haven't really considered their place in research!

Kerri Schubert @kerri_schOT
information governance breeches! #otalk

13 days ago

حورية السلطان @Hurya_Ahmad

13 days ago

@lezeki It can be of great use when it comes to a public health promotion model. When particularly looking at prevention ! A great example is the Ulcer Prevention App developed at USC . Principal investigator: Jesús Díaz #OTalk
<https://t.co/vLKb9G3KOU>

leisle Ezekiel @lezeki

13 days ago

Probably have lots of data points if collecting through the day. Can you too many data points ? #OTalk

Dr Lynne Goodacre @LynneGoodacre

13 days ago

I am also thinking of last months #OTalk research on photo elicitation, we all carry cameras around with us now so this kind of method becomes more accessible

Bill Wong, OTD, OTR/L @BillWongOT

leisle Ezekiel @lezeki

13 days ago

Starting to answer Qu 3 #OTalk. What do you consider the barriers or risks of using apps and smart tech in research?

حورية السلطان @Hurya_Ahmad

13 days ago

@lezeki It provides an inclusive environment , where adaptations and modifications can be easily tailored for the user. It also opens up the door for engaging young adults into research #OTalk

Catriona Connell @POPPED_Project
#otalk on apps in research @OTBeth131

13 days ago

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

@AmyStringerOT Thanks Amy. All kinds of apps were being used for rehabilitation, compensatory strategies & to support communication. #OTalk

Catriona Connell @POPPED_Project

13 days ago

RT @lezeki: Starting to answer Qu 3 #OTalk. What do you consider the barriers or risks of using apps and smart tech in research?

Dr Jenny Preston MBE @preston_jenny

13 days ago

@kerri_schOT I had an interesting conversation with our IT Dept re use of work issued iPhone for recording research interviews as apparently that's not what it was provided for! #OTalk

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

@lezeki What if the devices are stolen? Sometimes that's the risk when conducting such research in rough neighborhoods. #otalk

**OTalk** @OTalk_

13 days ago

Already some risks identified. Any other thoughts? Here's Q3. #OTalk

**Bill Wong, OTD, OTR/L** @BillWongOT

13 days ago

@lezeki And in this day and age... what if the apps are hacked/corrupted by hackers? #otalk

**Rebecca Crouch, Occupational Therapist** @RebeccaCrouch

13 days ago

@AmyStringerOT If your interested in reading more about apps being used in practice I recommend these: - Buckle C (2016) Keeping up with technology. OTnews, October, 24 (10) - Erickson K (2017) App-based mobile devices in the occupational therapy process. OT Practice, September, 22 (17) #OTalk

**Cara Lawrence** @caralawrence

13 days ago

@lezeki People not knowing how things work and dropping out! #otalk

**Dr Jenny Preston MBE** @preston_jenny

13 days ago

@lezeki Surely this comes down to the purpose of the research and what is actually being collected. Just because it is easier to collect data does not mean that we should collect it, this must be dependent on the research question and the methodology #OTalk

**leisle Ezekiel** @lezeki

13 days ago

It's a minefield understanding IT perspectives #OTalk

**Catriona Connell** @POPPED_Project

13 days ago

RT @POPPED_Project: Systematic review of apps for mood monitoring by the fab @m_dubad #otalk @otalk <https://t.co/9OZvPHxHmj>**OTalk** @OTalk_

13 days ago

RT @RobynStiger: @lezeki Helps collaboration between patients and clinicians #otalk

Cara Lawrence @caralawrence

13 days ago

@katie_crowfoot I can see the pros of both! I know myself working etc would more likely fill in a survey online than meet

with someone. Therefore may be useful in research and can imagine some clinical settings. But agree the need for person centred approach #otalk

Jacki Liddle @jacki_liddle

13 days ago

@colourful_ot @lezeki I think it is important that OTs develop technology literacy so we understand how technology we use and recommend works- where the data goes and who owns it. For eg smart speakers, speech to text etc. We need to explain well enough that informed consent possible #OTalk

leisle Ezekiel @lezeki

13 days ago

Touched on this earlier. Qu 4 #OTalk . What ethical considerations do we need to be aware of and overcome to use this tech in research?

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

RT @caralawrence: @katie_crowfoot I can see the pros of both! I know myself working etc would more likely fill in a survey online than meet...

Amy Stringer @AmyStringerOT

13 days ago

@katie_crowfoot Definitely! Think it depends on the type of research and the question-whether it's qualitative or quantitative. Though comprehensive understanding of clients experiences is what I value too as an OT and researcher :) #OTalk

Bill Wong, OTD, OTR/L @BillWongOT

13 days ago

@jacki_liddle @colourful_ot @lezeki We need in-services, or placement students to bring in such new knowledge in certain settings. #otalk

OTalk @OTalk_

13 days ago

Can you believe we are hurtling towards the last 10 mins. Here is Q4. Ethics!! #OTalk

Dr Lynne Goodacre @LynneGoodacre

13 days ago

Maybe but I just think we need to overcome this often negative bias towards for profit companies. it does not serve us well and is opposed to all the focus on collaboration between health, academia and industry #OTalk

leisle Ezekiel @lezeki

13 days ago

Absolutely. I have been learning from fellow researchers but also from colleagues within the app developer world. It can be a minefield #OTalk

Dr Jenny Preston MBE @preston_jenny

13 days ago

Can you explain this a little further please @RobynStiger, I'm on the fence with this one so keen to hear your perspective, thank you #OTalk

حورية السلطان @Hurya_Ahmad

13 days ago

@lezeki The risk of increased confounding variables comes to mind. Since the user will be let's say in their home environment or away from the research setting. Some variables, may not be accounted for, can arise and interfere with the data results. #OTalk

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

@katie_crowfoot Yes, your right. However, what if it was in another context? e.g. your using a app to disseminate and collect data from a questionnaire for practicing #occupationaltherapists? #OTalk

Jacki Liddle @jacki_liddle

13 days ago

@colourful_ot @lezeki Developers can focus on what is possible rather than what is necessarily ethical - co-design can help getting people to consider. We also worked on some broad guidelines of considering ethics with smartphone based approaches: <https://t.co/pLKaEF29vg> #OTalk

Cara Lawrence @caralawrence

13 days ago

@BillWongOT @jacki_liddle @colourful_ot @lezeki And refreshers its ok to be a novice in an area that you are not aware of yet #otalk

Robyn Stiger @RobynStiger

13 days ago

@lezeki Much cooler so can aid adherence in some of the younger groups. However many older people love apps and smart phones. My 93 year old grandad is a whizz with his phone!! 😄 #OTalk

Catriona Connell @POPPED_Project

OTalk @OTalk_

13 days ago

Here go with our last question of night #OTalk What do we need to do to advance this practice in OT Research?

Catriona Connell @POPPED_Project

13 days ago

RT @lezeki: Final question on #OTalk . How can we improve or advance the use of apps and tech in occupational therapy research?

Robyn Stiger @RobynStiger

13 days ago

@preston_jenny E.g There is a big trial in CF looking at drug adherence. It's helped improve the adherence of nebs massively because the patients get feedback and incentives and they know the MDT can see what they are up to. #otalk plenty of examples of this with exercise apps too

Catriona Connell @POPPED_Project

13 days ago

@lezeki collaboration - cant know everything! #otalk

OTalk @OTalk_

13 days ago

#otalk In to our last 5 minutes of tonight chat. It's been a fast one tonight!

CGoulden @CGoulden93

13 days ago

@RebeccaCrouch @AmyStringerOT Brilliant! It has been great to look over this discussion, I haven't much input as I am yet to go on placement but this is something I will definitely keep in mind for the future! Thank you for providing the information. #OTalk #Mscstudent #occupationaltherapy

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

@jacki_liddle @colourful_ot @lezeki There are some OT teams who are, however, you have to remember app use in practice is still very new territory. This literature is in it's infancy. If you're interested about this, I recommended some

reading earlier. I tag you in it. #OTalk

leisle Ezekiel @lezeki

13 days ago

Yes and we need to be clear on exactly what data the phone/app is collecting. #OTalk

Jacki Liddle @jacki_liddle

13 days ago

@BillWongOT @LynneGoodacre Because people are so keen to make apps - but no infrastructure to keep supporting it - have heard it likened to the "olden days" ;) trend for CD-ROMs which are now unusable! Important to also make information accessible in other forms (including low and no tech!) #OTalk

Cara Lawrence @caralawrence

13 days ago

@lezeki Poor connections in the rural world! #otalk #whatis4g and poor broadband

Amy Stringer @AmyStringerOT

13 days ago

#OTalk learning from other allied health professions who have also incorporated app use into their professions research base ... Learn from physio research, nursing research, psychology research ect. ...!

Dr Lynne Goodacre @LynneGoodacre

13 days ago

You're doing a great job by leading this discussion @lezeki the importance of people using apps and tech sharing their experiences, publishing research and presenting not just data but methodological papers #OTalk

OTalk @OTalk_

13 days ago

Any final thoughts on what next? #OTalk

Definitely. I struggle with that as an OT researcher because we bridge so many areas of knowledge. #OTalk

حورية السلطان @Hurya_Ahmad

13 days ago

@jacki_liddle @lezeki Great point Jacki !! Definitely food for thought. Balancing all these research/statistical considerations within a home environment is #GOALS #OTalk

OTalk @OTalk_

13 days ago

@CGoulden93 @RebeccaCrouch @AmyStringerOT Glad you found it useful! #OTalk

Dr Jenny Preston MBE @preston_jenny

13 days ago

Thank you @RobynStiger, that's helpful though I'm not sure that I would describe this as collaboration as it seems to be

more to do with monitoring and adherence. Interesting #OTalk

Jacki Liddle @jacki_liddle

13 days ago

@RebeccaCrouch @colourful_ot @lezeki Thanks - I do work/research in this field too. But I also see lots of OTs recommending or using technology that they do not realise is always "listening" or that sends data to overseas locations and is owned by a company. #OTalk

Dr Jenny Preston MBE @preston_jenny

13 days ago

I would definitely echo that @caralawrence #OTalk

Jacki Liddle @jacki_liddle

13 days ago

@RebeccaCrouch @colourful_ot @lezeki Clients may be happy with this - as often this technology can be very usable and supported - but they need to be informed so they can consider the trade off and make an informed decision #OTalk

OTalk @OTalk_

13 days ago

Well folks, that's 9pm and the end of tonight's chat. Please do keep the communication going - sounds like we have a lot to take forward. A very informative and critical discussion #otalk

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

@jacki_liddle @colourful_ot @lezeki This is worrying. It's why picking the right app is so important ~ One that's safe & reliable & made by trusted developers. #OTalk

Jacki Liddle @jacki_liddle

13 days ago

Have to head off to work now - but will check in on #OTalk later! Very interesting topic

OTalk @OTalk_

13 days ago

Thank you very much to tonight's host @lezeki for leading a very informative and fast moving discussion #otalk

Dr Lynne Goodacre @LynneGoodacre

13 days ago

Thanks v much @lezeki for a great talk and also @NikkiDanielsOT for keeping us on track #Otalk

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

@OTalk_ Gosh! An hour is not long enough to answer all these great questions! #OTalk

حورية السلطان @Hurya_Ahmad

13 days ago

@LynneGoodacre I totally agree. Inter/intra observer errors will for sure reduce !! Definitely swings and roundabout, Lynne ! #OTalk

@lezeki thanks for hosting a great #OTalk! Tweet to you all next Tuesday!

Nikki Daniels @NikkiDanielsOT

13 days ago

Thanks @LynneGoodacre and @lezeki Will need to go back and review the transcript- lots to take in tonight. Great discussion #Otalk

**OTalk** @OTalk_

13 days ago

RT @lezeki: Thanks to everyone for their tweets. Really interesting ideas . Great to connect! #OTalk
<https://t.co/rhrqZZbaKL>

Robyn Stiger @RobynStiger

13 days ago

@preston_jenny Well, in the patients who are struggling with their drugs often they are also struggling with other aspects of their health and so it terms of collaboration with patients it helps as they can be picked up before a scheduled appointment. Just an example #otalk

Rebecca Crouch, Occupational Therapist @RebeccaCrouch

13 days ago

@OTalk_ @lezeki Thanks to you both for facilitating such an interesting chat! Facinated to know what your PhD is about @lezeki? Is it #OT & app related? #OTalk

Carolina Cordero @colourful_ot

13 days ago

@RebeccaCrouch @jacki_liddle @lezeki I think another point that OTs working with technology (whether for research or assistive tech) should be aware of is the difference between free and open-source software - open-source means anyone can look and see exactly how it works, which is what we should aim for #OTalk

OTalk @OTalk_

13 days ago

Keep chatting all things apps and research; hopefully some links made and some good resources shared. Keep an eye out for the chat transcript so you can catch up on the tweets you may have missed. There was a lot of them tonight! #otalk

leisle Ezekiel @lezeki

13 days ago

Just at the last study of my PhD and looking at apps for assessing experiences of fatigue after acquired brain injury. Its a steep learning curve #OTalk

Robyn Stiger @RobynStiger

13 days ago

@preston_jenny They are the answer to everything but in certain aspects they can help. Another tool in the box #otalk

Jacki Liddle @jacki_liddle

13 days ago

@RebeccaCrouch @colourful_ot @lezeki Yes! And that we read (and simplify if needed) terms of use. Also that we understand how the app works in with hardware- ie if uses speech to text on phone then data is leaving the phone and often going to 3rd party to do that #OTalk

Jacki Liddle @jacki_liddle

13 days ago

RT @colourful_ot: @RebeccaCrouch @jacki_liddle @lezeki I think another point that OTs working with technology (whether for research or assi...

Dr Jenny Preston MBE @preston_jenny

13 days ago

@RobynStiger Are the patients involved in the development phases and have you had feedback from them? Not disagreeing, just interested as something to explore in clinical practice #OTalk

Carolina Cordero @colourful_ot

13 days ago

@jacki_liddle @RebeccaCrouch @lezeki Have you come across this site? It has nice short overviews of what you're signing up for on various websites <https://t.co/ao4UBDTRpj> #OTalk

Jacki Liddle @jacki_liddle

13 days ago

RT @colourful_ot: @jacki_liddle @RebeccaCrouch @lezeki Have you come across this site? It has nice short overviews of what you're signing u...

Robyn Stiger @RobynStiger

13 days ago

@preston_jenny Yes. Am a big advocate for patient involvement in the development phase and at all phases really. My research interest is in prehab, in surgical cancer patients & have been involved in a feasibility study doing just that. Seeing what works from the patient perspective. #otalk
